### WEDDING AND DIVORCE

#### AWKWARD ON TRIAL

Jackson, Ga., Nov. 6.—The case against Robert Kennedy and M. L. Childers, who are in jail here charged with causing the death of Mrs. Etta Richardson Childers, the bride of M. L. Childers, which are to be tried at the present term of the superior court opening today, probably will not be taken up before next after Kennedy was given a preliminary hearing. Mrs. Childers died on early hearing. Childers was also arrested on the same charge

poison, placed in a bottle of medicine which she had been using.

Kennedy and Childers have been occupying adjoining cells in the jail here since their commitment trials nearly two months ago. Kennedy is said to have been a former admirer of Mrs. Childers and was alleged to have been prompted by jealousy to poison Mrs. Childers. He boarded at the Childers' home. A few hours

Hon. Pharris Coleman, a prominent attorney of Montgomery, spent yesterday in Dothan attending business interest in court.

Hon. Wm. H. Sanford, of Montgomery, was among the out-of-town attorneys attending court in Dothan today.

If the rain the ladies wear get much worse, by next spring it will be necessary to have long glass peepholes in front.

### Astronomical Facts.

The diameter of the sun is reckoned at 862,000 miles. This diameter, owing to its loss of heat and the consequent condensation, is steadily being shortened, though at a very slow rate, of course. The whole solar system—the sun and all of its planets—is moving through space at a pace estimated at about 120,000,000 of miles annually. Those who are supposed to know about the matter assure me that, owing to certain causes, too numerous and complicated to be dealt with in this place, the planet on which we live receives only the 2,250 millionth part of the heat that is thrown off by the sun. Even as it is the earth receives annually from the sun an amount of heat that exceeds by a million times the heat producible by the combustion of 260,000,000 tons of coal.—New York American.

### MRS. VERMILYA GOES TO JAIL.

Chicago, Nov. 6.—Mrs. Louise Vermilya, the widow suspected of having poisoned Policeman Arthur Bissonette, brother of the dead policeman, that she murdered his brother. Then will come the coming without taking of testimony.

H. T. Donnell, of Daleville, Al., was a visitor to Dothan today.

You hardly ever see a man wearing a suit of clothes with tags on them, neither do you a much of the man who allows conductor's check to stay in his hand, to show that he has been in her room before her removal to a long journey on the train.

Municipal Judge Walker who issued the warrant for Mrs. Vermilya's arrest, consented to hold court, hand, to show that he has been in her room before her removal to a long journey on the train.

## ORANGE GROVE FROM GREECE

Mr. T. J. Martin, who resides four miles from Dothan, was in the city this morning with a bunch of oranges grown on a tree in his yard. The oranges are not of the Satsuma variety, or grown on a grafted tree, but were grown on a tree planted by Mr. Martin twelve years ago. The tree has been bearing four years and yields about 500 oranges each year. The fruit is juicy and well developed as the average Florida orange.

### Doing the President

CORN POLENTA MAGAZINE

President Taft, while on one of his trips to the west made a stop at a small town where he spoke a few minutes and received the usual handshakes or two of flowers from the adoring young ladies. Just as the special was pulling out of the station a boyfoot boy carrying a bouquet came running and squeezing through the crowd. Mr. Taft saw him.

"I can't run away from the little fellow like this," he said, pulling the bell cord and bringing the train to a stop. The youngster came up breathlessly and delivered the roses. The president smiled and handed him a dollar.

"Tom, he said to the porter after the train had resumed its way. It seems to me these flowers are rather wilting. The boy must have had a hard time in getting through the crowd."

"They ought to be wilting," answered Tom with a grin. "That there bouquet has been on this train for three days, and I just threw it out as we came into the town back there."

### REFLECTIONS OF A BACHELOR

From the New York Press  
All a man needs to do to do a foolish thing is to know better.

There's a world of hopes, there's a universe of disappointments.

Some men are so unlucky all the time that they can't get hold of any money, even in a dream.

It takes only intent for a woman to get a man in love with her, it takes a genius to keep him there.

It seems possible only to train the average mind to be untrained.

Earning money by the dignity of labor usually means getting it from a smart boss.

A man can look ten times as big over a dollar he has lost on a bet as over his whole business going to pot.

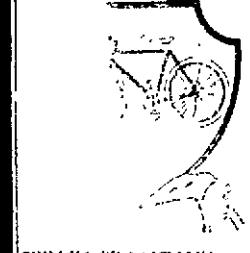

No matter how old a man is he can think he looks young till some young woman gets up to offer him a seat in a car.

It takes a girl less than a minute to make up her mind about a man who has taken months to make up his mind, almost about her.

## Pekin in Hands of the Revolutionists

### THREE CHINESE GENDARMES ARE CAPTURED BY THE REBELS

San Francisco, Cal., Nov. 6.—A cablegram to a Chinese newspaper received early today, said Pekin was captured late yesterday by the rebels following after a sharp encounter.

A dispatch was also received by the Chinese Free Press announcing the fall of Pekin had been reported in Shantung, but had not been confirmed. The dispatch stated that all officials of the city, including a number of high officials of the Manchu dynasty had fled in the night. The rebels are said to be in peaceful possession after a spirited fight late yesterday.

Local China men are celebrating the reported revolutionary victory with parades and fireworks. The streets are flooded with extra editions of Chinese newspapers and crowds are gathering in the heart of the Chinese mercantile district waving the flag of the republic and shouting and singing.

More Cities Fall

Shanghai, Nov. 6.—Three Chinese gunboats, forming a part of Admiral Bah Cheng Pings fleet which put in here yesterday for provisions went over to the rebels this morning.

The Chinese telegraph operators here went on a strike today.

The cables have not been molest ed. Foreign nations are guarding the elite horses. It is said that Admiral Bah is in hiding in the city. Ching Hsueh is in the province of Kiang Su. At 1 o'clock this afternoon all is quiet there. The city gate is open and the portuguese are still about. The population is about 3,000,000.

Hang Ching, the capital of the province of Kiang Su, is also by the rebels. A very large number of rebels are here.
